MISCELLANEOUS BUSINESS.

The following preamble and resolution were offered by Aldermen Dusenbery and adopted.

Whereas, Private parties and corporations, in virtue of their riparian proprietorship upon streams in the northern mountainous part of the State, are not only claiming and asserting ownership of the source upon which this city and the neighboring communities must depend for a permanent supply of pure water in the future, but are also asserting rights of actual property in the supply itself, coupled with certain exclusive franchises to store and sell the water, and

Whereas, Said parties are proposing to deal with cities in this and other States on the basis of these claims of ownership and exclusive rights, and to make grants to municipalities of water, or to enter into con-

tracts with them for furnishing public water supply, and

Whereas, If such claims are admitted to be well founded and not opposed to public policy, it is manifest that a large proportion of the population of this section of the State will ultimately be compelled to submit to the demands, extortionate or otherwise, of a monopoly organized to control the public water supply, and

Whereas, In order to preserve the public right in these waters and to afford due protection to the public interests involved, it is requisite that the authority of the State be interposed to prevent the acquisition of adverse rights of possession therein by private corporations for private gain, or the exclusive appropriation under the form of contracts with such corporations or otherwise, by single municipalities; therefor

Resolved, That in the name of the people of Jersey City we respectfully urge the Legislature to limit the unusual and dangerous powers now granted to persons, who may organize or have organized as private corporations, to withdraw waters from the sources now mentioned, with a view to sell the same to the public and obtain a monopoly thereof, under which they claim the right to prevent great cities and communities from using such waters for public purposes; and to further urge that there be provided by statute a central authority to regulate and administer the diversion and use of the potable waters of the State so far as may be necessary to secure equal benefit therefrom to all the municipalities of the State and their inhabitants; and that for the accomplishment of these objects, we favor the passage of the act now pending in the Legislature known as Senate bill No. 42, an entitled "An act to ascertain the rights of the State in certain of the waters of the State, and to provide for furnishing a State water supply to the municipalities thereof, and to create a State Water Board, empowered to construct and maintain works for that purpose," and

Resolved, That copies hereof duly signed and exemplified be communicated to each house of the Legislature.

Alderman Day appeared and took his seat.

The following preamble and resolution, were offered by Alderman Dusenbery and adopted

Whereas, The Legislature have passed a bill to annex a part of Hudson County to the County of Essex, and

Whereas, Said bill having been vetoed by the Governor and passed by the House of Assembly notwithstanding the objections so ably set forth in the veto message and is now before the Senate with a possibility of similar action, thereon.

Resolved, That the Board of Aldermen of Jersey City as representatives elected by the people do hereby most earnestly protest against the passage of said act to dismember Hudson County, believing that such action would be illegal, unfair and tending to institute a kind of legislation that would lead to endless litigation, vexation and trouble, pos-

sibly opening the door to repudiation of debts and seizure of inherited rights, lessening on the one hand or increasing on the other valuations upon which bonds have been issued or obligations incurred, disturbing assets and rendering uncertain the credit of the people.

Resolved, That we respectfully urge the Senators of the State of New Jersey to sustain by the votes the objections of the Governor to this proposed measure and that a copy hereof be sent to the Senators by the City Clerk.

The following resolution was offered by Alderman Dusenbery and adopted.

Resolved, That the use of the Aldermanic Chamber, City Hall, be granted to citizens interested in opposing the dismemberment of Hudson County by the addition of Harrison and Kearney to Essex County.

The following preamble and resolution were offered by the President and adopted.

Whereas, In dry weather the streets through which the cars of the Consolidated Traction Company run are a cloud of dust and by reasons thereof of great discomfort to residents and others.

Resolved, That the Board of Aldermen do hereby request the officers of the Consolidated Traction Company to cause that portion of the streets occupied by the tracks of said company to be sprinkled with water for the purpose of laying the dust raised in dry weather by the swift passage of the trolley cars.

The following entitle ordinances were presented by Alderman Dusenbery and the same were received, laid upon the table and ordered to be printed on slips for the use of the Board, viz:

The following entitled ordinance was presented by Alderman Mitchell and the same was received, laid upon the table and ordered to be printed on slips for the use of the Board, viz An ordinance to establish, regulate and control pounds in Jersey City to regulate and prevent the running at large of dogs, their redemption and destruction, and to regulate and prevent the running at large of other animals, their destruction and sale and the imposition of license, pound and redemption fees.

The following preamble and resolutions were offered by Alderman Martin and adopted:

Whereas, The crossings of the New York, Susquehanna and Western Railroad at Newark avenue, about one thousand feet west of Tonnele avenue and at St. Pauls avenue are not sufficiently guarded for the protection of life and property and travel is constantly increasing and many narrow escapes have been witnessed at said crossings; therefore:

Resolved, That the New York, Susquehanna and Western Railroad Company be requested to cause the gates at the crossing of Newark avenue about one thousand feet west of Tonnele avenue to be repaired and put in good order and to cause gates to be placed at both sides of said road at St. Pauls avenue crossing with flagmen in attendance for the better protection of life and property.

The following preamble and resolution were offered by Alderman Dohrmann

Whereas, The Pennsylvania and Erie Railroad Companies having their terminals in Jersey City have always treated the people of Jersey City with indifference and have persistently refused any consideration or accommodation to such of its passengers as have business in this city; and

Whereas, The property of our citizens is taxed for the benefit of all within the City limits and fire and police protection is afforded to all alike; and

Whereas, The property of these corporations pay a tax of but one per cent. to the municipality at a value fixed by a State Board and the property of the citizen is compelled to pay its full share of county and city taxes; and

Whereas, The assessed value of private property is constantly increased to meet all deficiencies by reason of the purchase and retirement from the tax lists of property absorbed by railroad corporations; and

Whereas, It is now impossible on entering the city by either road to stop anywhere except at the depot, necessitating a ride back from the depot at the expense of a fare on trolley road and the payment of a fare to the depot by those who desire travel over either road on leaving the city, causing a loss to each individual of from five to fifteen cents; and

Whereas, This unfair treatment of our citizens causes great dissatisfaction and a desire for justice to our people; therefore

Resolved, That the Board of Aldermen of Jersey City, as representatives of the people, demand of the Pennsylvania Railroad the establishment of a depot for all local trains at either Varick or Monmouth streets, and by the Erie Railroad Company at either Monmouth or Brunswick street and at a point immediately west of the tunnel, and that both roads deduct from the price of all tickets purchased in Jersey City the ferriage to and from New York City.

The preamble and resolution were adopted by the following vote, the yeas and nays having been ordered and taken on the call of the President pro tempore:

Yeas—All the members present, ten in number.

Whereas, At this time Jersey City by reason of its proximity to other places, and being the terminal of so many important lines of railway, affords a splendid opportunity for the arrival of very many indigent persons, and most of our charitable institutions afford temporary relief, and then they in turn send all applicants to the Overseer of the Poor, and

Whereas, The poor of our city require all the attention of the Overseer, and the means at his command are not sufficient for the needs of those who are chargeable to our city and those coming here from other places cannot and should not be retained at the expense of Jersey City. Therefore

Resolved, That the Overseer of the Poor be directed to notify all charitable institutions in Jersey City that the giving of relief to persons whose legal residence is not within our city limits is an injury to the deserving poor in our midst and that they be requested to refuse alms to all applicants on the ground that the Overseer of the Poor is the only proper authority to deal with all persons seeking relief who have no legal residence in Jersey City.

Nays—Aldermen Day, Fleming and McCoobery.

On motion of Alderman Witter the privilege of the floor was granted to James S. Erwin, Esq., attorney, who explained the necessity for the ordinance. Resolutions were presented, received and disposed of as follows:—

By Alderman Witter and adopted:

Whereas, Much complaint exists on the part of people who patronize licensed peddlers that measures used by them are not honest, and while prices may be cheap the quantity is not what it should be; therefore

Resolved, That the Inspector of Scales Weights and Measures be directed to immediately examine and seal all measures used by licensed peddlers and to report to this Board the names of all peddlers whose measures may be found not correct that they may be dealt with by this Board.

Resolved, That the Chief of Police be requested to assist the said Inspector in such manner as will enable him to perform his duties.

By Alderman Wilson and adopted:

Resolved, That the ordinance passed July 24, 1894, to establish, regulate and control pounds and to prevent the running at large of animals, be referred to the Corporation Counsel with the request that he furnish this Board with his written opinion as to the legality of said ordinance.

By Alderman Day:

Whereas, The water supplied to our people is very unsatisfactory, and we in common with other officials are desirous of improving the present supply;

Resolved, That we respectfully recommend to the Board of Street and Water Commissioners the frequent cleaning of the intake at Belleville and its enlargement as soon as possible; also the cleaning of reservoirs at Belleville and High Service before the coming of cold weather.

Alderman Martin moved:

That the preamble and resolution be referred to the Grand Jury.

The motion was rejected by the following vote, the yeas and nays having been ordered and taken on the call of the President:—

Yeas—Aldermen Dohrmann, Martin and McCarthy.

Nays—Aldermen Day, Dusenberry, Fleming, Hill, McCoobery, Mitchell, Wilson, Witter and President Simpson.

The preamble and resolution were then adopted.

By Alderman Day.

Whereas, Great loss and inconvenience is being suffered by the people of Jersey City on account of the deterioration of its water supply; and

Whereas, Such deterioration is due to the introduction of sewage and other polluting matter into the Passaic River by municipal and other corporations and individuals; and

Whereas, Jersey City has by direct grant of the Legislature a vested right in the water of the Passaic River at the point whence its present supply is drawn; which grant and the right vested under it entitles the city to receive its supply at its present intake in a state of natural purity, and a trespass resulting in actual injury thereto, entitles the city to an equitable remedy for the enforcement and maintenance of its said right against infringement by any other party or parties whatsoever; and

Whereas, It is a matter of public notoriety that such infringements as aforesaid have not only been allowed in the past without adequate legal resistance, or even protest on the part of the authorities of this city (whereby its interests have been compromised and the health of its citizens endangered,) but at the present time new inroads are being made upon the purity of the Passaic with the tacit acquiescence of the city's representatives; and

Whereas, The claim is made that the injury already done to the present water supply is past remedy necessitating an abandonment of the rights of the city, in the Passaic River; and

Whereas, The adoption of this course under present circumstances involves a contract with some unknown individual or private corporation, with its attendant risks and increased burden upon the City's Treasury and tax payers; and

Whereas, The deterioration of the present source of supply is due to no fault on the part of Jersey City, unless through a neglect to assert its rights in the premises, and no good reason exists for the abandonment of said rights; therefore,

Resolved, That it is the sense of this Board that the city should at once proceed to maintain, by an appeal to the courts, its right to draw water in a state of natural purity from the Passaic River "between Belleville and Acquackanonk," according to the terms of the act authorizing the construction of the Jersey City Waterworks, against all infringers of said right; and further,

Resolved, That this Board deems it inexpedient and unsafe for Jersey City to abandon its franchise to take water from the Passaic River at the present intake, under the direct sanction and protection of the State, by placing its water

service under the administration of private parties, waiving thereby the guarantee as to its permanent purity and sufficiency afforded by such State protection.

Alderman Martin moved that the preamble and resolutions be referred to the Grand Jury.

The motion was rejected.

The preamble and resolutions were then adopted.

On motion of Alderman Day, the rules were suspended, and Andrew Kane was appointed a City Weigher and Measurer.

On motion of Alderman Dusenbery, the Board then adjourned.

MISCELLANEOUS BUSINESS.

The following resolutions were offered by Alderman Day:—

Resolved, That by and with the concurrence of the Board of Finance an expert legal opinion be obtained from eminent legal counsel, to be selected by the President of said Board and the President of the Board of Aldermen, as to whether there is vested in the Mayor and Aldermen of Jersey City by the terms of the Act of the Legislature, approved March 25th, 1852, entitled "An Act to authorize the construction of works for supplying Jersey City and places adjacent with pure and wholesome water," or by the terms of the City Charter, or by the general statutes or the common law, a right which is capable of enforcement at law or inequity on the part of the people of Jersey City, to have the water of that part of the Passaic River which is designated in the said Act of March 25th, 1852, as the source from which the water supply of Jersey City is to be drawn, preserved from wilful contamination: and,

if a right exists on the part of this city, by virtue of said Act or otherwise, to receive its water supply at the present intake in a state of natural purity, then, as to the proper legal steps to be taken to enforce said right; and

Resolved, That the Board of Finance be and hereby is requested to make an appropriation of one thousand dollars to defray any expenditure which may be necessarily incurred pursuant to the foregoing resolution.

The resolutions were adopted by the following vote, the yeas and nays having been ordered taken on the call of the President:—

Yeas—All the members present, excepting the President, who refrained from voting.

The following preamble and resolutions were offered by Alderman Day and adopted:—

Whereas, The experience of the present year has brought to light grave defects in the water service of Jersey City aside from the impurity of the Passaic River, which defects are capable of remedy at moderate cost; and

Whereas, Because of said defects, not only are the residents of Bayonne and the Greenville section of this city compelled to use the water of Passaic River with insufficient pressure and without its having had any opportunity whatever for sedimentation or self-purification in the Bergen Hill reservoirs, but in time of deficient supply one of said reservoirs only is practically available for the depuration of the water served to the other portions of Jersey City, the second of said reservoirs not receiving or delivering water in any useful amount at such times; and

Whereas, It is absolutely necessary to the welfare of the city and the comfort of its inhabitants that, before another summer, the evils arising from the present antiquated method of handling the water supply should, so far as possible, be cured, and the Water Works as a whole made more effective; and

Whereas, The proposed relief to the city through the introduction of anew water supply by contract is a remote contingency, and under the most favorable circumstances must require from three to five years for its realization; therefore

Resolved, That, under the existing circumstances, we hold it to be the duty of the Board of Street and Water Commissioners, as the branch of the city government charged with the oversight of the water supply and of the expenditures connected therewith, and of the Board of Finance, as having concurrent power, to proceed at once to the consideration of plans for an improved administration of the present water supply

in accordance with modern practice, in order that the legislation necessary for their execution may be obtained at the next session of the Legislature; and we recommend that such plans be prepared under the supervision of competent and disinterested experts jointly selected by the said boards.

Resolved, That copies hereof be sent to the Board of Street and Water Commissioners and the Board of Finance.

By Alderman Dohrman and adopted:

Whereas, The public parks of the city are without any public conveniences, and great necessity exists for their establishment; and

Whereas, Van Vorst Park is now being improved and it is contemplated to improve Hamilton Park in the near future;

Resolved, That the Board of Street and Water Commissioners be requested to cause to be erected in each of the public parks, public conveniences for the use of the people, both male and female.

Resolved, That the Board of Finance be requested to make an appropriation sufficient to cover the cost of such needed improvement.

The following preamble and resolutions were offered:

By Alderman McCoobery:

Whereas, The provisions of an act entitled 'An Act relating to and regulating the government of cities,' approved April 24, 1894, being Chapter 62 of the Laws of 1894, it is made possible for the people of Jersey City by adopting said act to simplify their municipal government and to place in the custody of a Mayor and Common Council and other officers elected by popular vote the government of the city.

Resolved, That the Board of Aldermen of Jersey City do hereby order and direct that a special election be held in Jersey City on Tuesday, December 18, 1894, the places for which shall be opened at six o'clock in the forenoon and closed at seven o'clock in the afternoon for the purpose of giving the voters an opportunity to determine by ballot whether Chapter 62 of the Laws of 1894 shall be accepted or rejected for Jersey City, due notice of which election shall be given by the City Clerk who shall cause public notice of the time and places of holding said election to be given by advertisements signed by himself and set up in at least twenty public places in the City and published in two daily newspapers printed therein for at least six days previous to the day of election.

Resolved, That for the purposes of said election the several boards of registry and election shall meet at such places as shall be selected by the City Clerk as required by law, on Tuesday, December 11, 1894, at seven o'clock in the morning, and remain in session until nine

o'clock in the evening, for the purpose of revising, correcting and completing the registry to be used at said election, taking the copy thereof filed in the City Clerk's office immediately following the general election of November 6, 1894.

Resolved, That ballots for said election be printed and furnished by the City Clerk, and said election shall be held in the manner required by law and a return thereof made as required by said Chapter 62 of the Laws of 1894.

MISCELLANEOUS BUSINESS.

The following preamble and resolutions were offered by Alderman Dusenbery:

Whereas, The Act of May 28, 1890, regulating elections, imposes additional duties upon the City Clerk, and by section 53 thereof this Board is authorized to allow compensation therefor and

Whereas, In our judgment such duties have been faithfully performed; therefore

Whereas, Under "An Act to cede to the Mayor and Common Council of Jersey City certain lands of the State now and heretofore under the waters of Communipaw Bay and to establish a tide-water basin adjacent thereto," Approved April 4, 1872, ample provision was made for dockage for the people, affording means to ship and receive goods, wares and merchandise; and

Whereas, While the Corporation of Jersey City were seemingly indifferent to this great gift, the Central Railroad Company of New Jersey, without authority of law seized this property, and being in possession, have ever since defied the municipal authorities and by trick and device have for years wrongfully defraud-

ed this city of a large revenue for the use of the tidewater basin and have obtained for themselves a large amount of money which should have been received by this city, sufficient to improve the basin, build docks and enforce the terms of the grant, and

Whereas, At the present time the Central Railroad Company of New Jersey are in receipt of the following amounts collected by its agents, to wit:—

Resolved, That the Corporation Counsel and Corporation Attorney be directed to commence action immediately to cause the Central Railroad Company of New Jersey to vacate the property ceded to Jersey City under said act of April 4, 1872, and to compel said railroad company to pay to Jersey City all moneys received by said company for the use of the property given to Jersey City under said act.

Resolved, That His Honor the Mayor and the Board of Finance be requested to take such action as will accomplish the object of the foregoing resolution.

The following preamble and resolutions were offered by Alderman Day:

Whereas, Private parties are proposing to deal with this city and with cities in another State on the basis of their alleged ownership of the water in the streams of New Jersey, and to give options and to make conditional grants of such water in derogation of the sovereignty of the State, and

Whereas, If said claims are recognized, it is manifest that a large proportion of the population of this State will be compelled to submit to the demands of a monopoly organized to control the public water supply, therefore,

Resolved, That it is the sense of this Board that in order to preserve the public right in these waters and to afford due protection to the public interests involved, it is requisite that the authority of the State be interposed to prevent the acquisition of adverse rights of possession therein by private corporations for private gain or their exclusive appropriation under the form of contracts with such corporations or otherwise, by single municipalities, therefore,

Resolved, That in the name of the people of Jersey City we respectfully urge the Legislature to limit the unusual and dangerous powers now granted to persons who may organize or have organized as private corporations, to withdraw water from the sources now mentioned with a view to sell the same to the public and obtain a monopoly thereof, and under which they claim the right to prevent great cities and communities from using such water for public purposes, and to

further urge that there be provided by statute a central authority to regulate and administer the diversion and use of the potable waters of the State, so far as may be necessary to secure equal benefit therefrom to all the municipalities of the State and their inhabitants; and that, for the accomplishment of these objects, we favor the passage of the act now pending in the Legislature known as Senate bill No. 36, and entitled "An act to ascertain the rights of the State in certain of the waters of the State, and to provide for furnishing a State water supply to the municipalities thereof, and to create a State Water Board, empowered to construct and maintain works for that purpose, or of any act now pending in the Legislature intended to accomplish the same ends, and

Resolved, That copies hereof duly exemplified be sent by the City Clerk to Hon. W. D. Daly, Hon. W. E. Drake and Hon. J. F. Blackshaw, with the request that they communicate the same to the Senate and House of Assembly now in session.

Alderman Dusenbery moved that the preamble and resolutions be laid upon the table until the next regular meeting.

Whereas, The transfer to the city, by the State, in 1872, of property known as the South Cove Grant, affords to the people of Jersey City the only possible chance of establishing docks and piers anywhere along the Hudson River; and

Whereas, Said property is worth millions to our city, and in time will yield a revenue sufficient to cover any cost of improvement, and, no doubt, will eventually become a great source of income because of its location, its extent and the great benefit to the business portion of our community; therefore,

Resolved, That the time is urgent, and we respectfully recommend the co-operation of all associations and organizations in Jersey City to help and sustain the corporate authorities of Jersey City in securing, without further delay, this inestimable gift to the City of Jersey City.

OFFICERS COMMUNICATION.

The following communication from the Corporation Counsel was presented, received and ordered filed:

Jersey City, N. J., March 8, 1895.

Gentlemen of the Board of Aldermen:

I am in receipt of a resolution passed by your Board, at its meeting held on the 19th of February, 1895, directing the Corporation Counsel and the Corporation Attorney to commence action immediately against the Central Railroad Company to vacate the property known as the South Cove property, granted to Jersey City, by the Act of April 1, 1872; and to compel the said Railroad Company to pay to Jersey City, all moneys received by said company for the use and occupation of said property. It is manifest that your Honorable body does not understand the present legal status of that property. Some years ago a suit was started on behalf of the City of Jersey City against the American Dock and Improvement Company, for the recovery of the property in question, and in March, 1892, the Supreme Court of New Jersey rendered a decision in favor of Jersey City. In June, 1892, that decision was taken to the Court of Errors of the State of New Jersey, and that Court on December 9, 1892, affirmed the decision of the Supreme Court. Subsequently the American Dock and Improvement Company, the defendants, removed the judgment of the Court of Errors to the Supreme Court of the United States, and the case is now pending in that Court and is on the docket of the Court as No. 503 of the October term, 1894, and will probably not be reached for argument before one year from this time as appears from a letter of the Clerk of the Supreme Court addressed to me and annexed to this communication. It may be reached earlier. On the occasion of the removal of the judgment of the Court of Errors of this State into the Supreme Court of the United States, the defendants gave a bond in the amount of \$10,000 to answer for the profits received from the property.

From this statement of the situation of the case you will see that it is idle to attempt to do what your resolution directs. The whole matter must remain as it is until its final determination by the Supreme Court of the United States. If the judge-

ments of our own Courts are affirmed the city will not only recover possession of the property itself, but will also recover from the defendants all the monies wrongfully collected by it from this property.

Very truly yours,

JOHN A. BLAIR,

Corporation Counsel.

4. MISCELLANEOUS BUSINESS.

The following preamble and resolution were offered by Alderman Dusenbery and unanimously adopted:—

The announcement of the death of John E. Scott (late Clerk of the city) comes to this Board with peculiar sadness. He was the warm personal friend of us all. The thoroughness and extent of his official knowledge, the unvarying courtesy of his manner and his prompt attention to the demands of public business all remind us of the great loss we have sustained by his sudden decease.

Mr. Scott was born in Jersey City, he was educated in her public schools, a resident always within her borders, closely identified with her growth and development, a watchful guardian of her best interests; he was an ideal representative citizen.

For the remarkable period of nearly thirty years, through every change of political party, he occupied one of the most responsible appointive offices of this city, yet during all this time, much of it characterized by partisan bitterness, no complaint was ever heard of any act of discourtesy on his part, of any inattention to the public business of the office which he administered, nor the slightest departure from the line of absolute integrity.

As the holder of a great responsible public position his example of uprightness and fidelity invites our highest praise and challenges our warmest admiration. As a man "none named him but to praise." In every relation of life he was pure and faithful, he fulfilled every duty thrust upon him with a clear appreciation of its importance and with a cheerful thoroughness of which his friends were always proud. His character was beyond the reach of calumny, his life was clean and above reproach and he died in the enjoyment of the universal respect and confidence of his fellow men.

His reputation as a public official and his character as a private citizen, will be long held in sweet remembrance by a wide circle of surviving friends.

We hereby tender our deepest sym-

pathy to his sorrowing family in this sad hour.

Resolved, That these resolutions be spread in full on the minutes of this Board, and that a properly engrossed copy of the same be presented to the bereaved family.
